Jeet Mukherjee

Senior FullStack Developer · Bangalore, India

jeetmukherjee100@gmail.com · 9734250702 · jeetm.dev · linkedin.com/in/jeetm

SUMMARY

Senior FullStack Developer with 11 years of experience specializing in the MERN stack and enterprise fintech solutions. Proven track record of building scalable, high-performance applications and streamlining developer workflows. Adept at bridging the gap between complex business requirements and clean, maintainable code.

SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL

Frontend: React, Redux, Next.js, HTML5, CSS3, TailwindCSS, SCSS, Styled Components

Backend & APIs: Node.js, Express, REST APIs

Tools & DevOps: Docker, Git, GitHub Actions, Azure Pipelines

EXPERIENCE

Assoc, Frontend Engineer · Standard Chartered GBS

September 2025 to Present · Bangalore, India

- Built responsive React applications within native iOS/Android WebViews, using custom bridges for device capabilities and fully automated Azure pipelines.

Senior Technical Specialist · DigitalAPICraft Private Limited

March 2022 to September 2025 · Bangalore, India

- Developed and maintained React-based fintech dashboards within the Fiserv AppMarket ecosystem, enhancing user experience for enterprise banking partners.
- Built and optimized embedded API explorer tools that allow clients to visualize and test APIs in-browser.
- Collaborated with cross-functional teams to integrate API products into developer-friendly UIs, streamlining onboarding for partner banks and fintech users.
- Improved codebase maintainability and performance by implementing reusable component patterns, lazy loading, and state management best practices.
- Contributed to internal tooling for API documentation, reducing manual testing efforts and improving release cycles.

IT Application Developer · i-Link Research Solutions

July 2018 to March 2022 · Bangalore, India

- Designed and maintained software applications, enabling multilingual support for cross-market launches.
- Enhanced in-house Administration Portal and Campaign Management System using PHP (MVC) and React.
- Developed REST APIs using CodeIgniter and MySQL for mobile integration.
- Monitored web performance and implemented agile product enhancements and bug fixes.

Software Developer · Techno Exponent (T-Web Exponent Services Pvt. Ltd)

September 2017 to June 2018 · Kolkata, India

- Engineered cross-browser compatible web interfaces, including comprehensive merchant portals.
- Developed e-commerce features utilizing the Amazon Marketplace API to fetch product listings.
- Translated mock-ups into clean HTML, JavaScript, AJAX, and JSON code.

Program Analyst · Corelynx Inc

June 2015 to September 2017 · Kolkata, India

- Researched and developed new technology designs for the company's product CONVERGE HUB CRM.
- Implemented back-end API for Android and iOS apps.
- Created API documentation website using SWAGGER UI.
- Implemented drop-box style data storage functionality in ConvergeHub CRM and provided an option to sync its data to Dropbox, Google Drive, Box apps.
- Created Zapier App for CRM so that users can automate some of the basic but important functionality.
- Implemented campaign management system using Mail-chimp APIs.
- Developed code collaboratively with Agile squads to produce best results.
